

To our customers

Market information concerning updated prices for steel

Dear Sir or Madam,

The prices for steel are still increasing rapidly.

To be able to further operate economically on the market, we see ourselves forced to further adjust our prices.

From 01 September 2021 the material surcharge for all our steel products will be **€ 0.85 per kilogram of steel**.

As a summary, here is once again an overview of all our current material surcharges:

Material	Material surcharge	Validity
steel	0.60 €/kg	01.07.2021 – 31.08.2021
steel	0.85 €/kg	from 01.09.2021
stainless steel	3.40 €/kg	from 13.07.2021

We thank you for your understanding and for the good cooperation so far and look forward to being your trusted partner for future projects as usual.

Yours sincerely,
Krampitz Tanksystem GmbH
